SUMMARY

Aspiring Data Scientist with practical experience in Python, Machine Learning, Data Analysis, and Data Visualization. Skilled in exploratory data analysis (EDA), data preprocessing, predictive modeling, and SQL-based data querying using tools such as Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, and TensorFlow. Strong analytical and problem-solving abilities demonstrated through internships and data-driven projects. Seeking to apply technical expertise and a passion for data science to develop innovative solutions and drive informed decision-making.

WORK EXPERIENCE

Intern, InfoLabz

July 2023 – August 2023

- Gained hands-on experience in machine learning using frameworks such as TensorFlow and scikit-learn.
- Implemented and explored deep learning techniques, including Convolutional Neural Networks (CNN) and Recurrent Neural Networks (RNN).
- Assisted in building and testing basic ML models for practical applications.
- Collaborated with cross-functional teams to improve technical workflows and enhance communication efficiency.

Intern, Techno IT Hub

September 2022 – May 2023

- Developed responsive web interfaces using HTML, CSS, and JavaScript.
 - Designed and implemented multiple website projects with a focus on user experience and clean design.
 - Gained practical experience in front-end development and deployment processes.
 - Worked in a team environment to deliver projects within deadlines.
-

EDUCATION

Bachelor of Technology in Information Technology 2024 – 2027

CGPA:8.5

- SAL Engineering and Technical Institute, Gujarat Technological University.

Diploma in Information Technology 2021 – 2024

CGPA:9.5

- Government Girls Polytechnic, Ahmedabad, Gujarat Technological University.
-

PROJECTS

- [Emotion-based-music-recommendation-system](#)

The Emotion-Based Music Recommendation System provides real-time, personalized song suggestions by analyzing users' emotions, creating a unique and emotionally resonant music experience across various platforms with data privacy.

- [AIVA-Desktop-Assistant](#)

Developed AIVA (AI Voice Assistant) using Python + Flask: an always-on voice-controlled desktop assistant that performs speech-to-text (with optional noise reduction), text-to-speech, automates common desktop/web actions (apps, browser navigation, screenshots, system controls), and integrates Gemini AI + Wikipedia for conversational Q&A. Built a live web dashboard for system metrics and activity tracking, showcasing real-time UI + backend integration.

SKILLS

- **Programming Languages:**
Python, JavaScript
- **Data Analytics & Visualization:**
Exploratory Data Analysis (EDA), Data Cleaning, Data Visualization, Pandas, NumPy, Matplotlib, Seaborn
- **Database Management :**
SQL, MySQL
- **AI & Machine Learning:**
TensorFlow, scikit-learn, Deep Learning (CNN, RNN), Data Science
- **Web Technologies:**
HTML, CSS, Bootstrap, Tailwind CSS, React.js, Node.js
- **Computer Science Fundamentals:**
Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP)
- **Tools & Platforms:**
, Visual Studio Code, Git, Git Desktop ,GitHub, Jupyter Notebook, Google Colab
- **Languages:** English, Hindi
- **Professional Skills:** Problem Solving, Team Collaboration,Leadership, Time Management, Communication Skills.
